

A Song from the heart

On the behalf of BFF's student me Samip Bhatta would like to express my gratitude for providing me the greatest oppurnity in my life. I wish God to make BFF as a shiny star on sky.

While working in Bhotechour and meeting student's parents gives me a pleasure. When student greet us with their warm hearts and welcome us with flower and tell their stories of how life has changed for them, it brings tears of happiness to our eyes; and all the credit goes to the Bright Future Foundation, whose moral, financial and in some way spiritual support has made BFF's student life easy.

BFF's student have been able to pass school and now few of them are in higher studies.

Of course there are challenges as well, but in any long journey there are challenges that must be met in order to do our work better. As one proverb goes: "a thousand mile journey starts with single step."
